Dependable. Tough. Tomahawk.

The Tomahawk Live Trap team is committed to providing you with the finest animal traps, cages, and animal handling equipment available. Our mission is to exceed expectations.

Many of you have approached us with great ideas about new and improved products. We often build custom traps, cages and other animal handling products for our customers. Thank you for these opportunities and the trust you have in us. We genuinely enjoy working with you our valued customers to develop new products and improve existing ones.

We proudly manufacture our products in the USA at our 50,000 square foot facility in Northern Wisconsin. Our team takes pride in the quality of their work and we back all of our products with a one-year warranty against factory defects.

My wife Jenny and I attend many trade conferences each year all around our great country and we genuinely enjoyed visiting with each of you. If you should see us at one of these conferences in the future, please stop by and say hello or give us a call at 800-272-8727 to share your thoughts. We can also be reached via email at greg@livetrap.com or jenny@livetrap.com. The team at Tomahawk Live Trap greatly appreciates you, our valued customers, for your continued support.

WE SINCERELY WANT TO SAY

Thank You

Greg Smith
and *Jenny Smith*

THE TOMAHAWK ORIGINAL SERIES TRAPS

Tomahawk Original Series traps are the most reliable traps available. These traps are constructed with galvanized wire mesh frames, and have steel reinforcing rods welded to the frame for added strength. Made in the USA at our facility in Wisconsin, each trap is quality inspected and tested before shipping.

THE TOMAHAWK ORIGINAL SERIES TRAPS

Model 108

Superior Strength - Tomahawk Original Series Traps are the most reliable traps on the market. They are built with heavy duty materials and backed by a one year manufacturer's warranty. Each trap is hand tested and inspected for quality.

Very Affordable - These traps have a single trap door and do not have a back door. This means animals must be released through the same door from which they entered the trap. The single trap door design makes this category more affordable than most of our other trap categories.

Original Series - Rigid Traps with One Trap Door

Easy Animal Release - Easy release door provides the safest and easiest way to release trapped animals.

Easy Animal Transfer - Easy release door allows captured animals to be safely and easily transferred to holding or transfer cages. We offer a line of transfer cages that match up perfectly with these traps. This allows you to keep your traps in the field by transferring animals from your traps into transfer cages.

Easy Trap Baiting - Baiting is much easier when done from the back of the trap with the easy release door removed. You no longer have to reach through the front of the trap and risk setting it off.

Simple to Operate - Unsnap the latch which holds the easy release door in place, and remove it by lifting up on the attached handle.

Original Series - Rigid Traps with One Trap Door and Easy Release Door

THE TOMAHAWK ORIGINAL SERIES TRAPS

Model 107
Rigid Traps with
Two Trap Doors

Model 105F
Flush Mount Trap

Flush
When
Set

Calms Wary Animals - Trap doors at both ends allow animals to see through the trap without obstruction and enter with confidence.

Set as Single or Double Door - Traps with two trap doors are more versatile because they can be set with only the front door as a baited trap or set both trap doors to use as a bait-less runway trap.

Original Series - Rigid Traps with Two Trap Doors

Model	Target Animals	L - W - H	Construction	Wt	Retail Price
104	Squirrel, Muskrat and Similar-Sized Animals	24 x 6 x 6	1 x 1 - 14 gauge	3 lbs	\$50.85
104.1	Squirrel, Muskrat and Similar-Sized Animals	24 x 6 x 6	½ x 1 - 16 gauge	4 lbs	\$52.95
105.5	Skunk, Opossum, Prairie Dog and Similar Sized Animals	24 x 7 x 7	1 x 1 - 14 gauge	4 lbs	\$63.55
105.6	Sheet Metal Covered for Skunk	24 x 7 x 7	1 x 1 - 14 gauge	5 lbs	\$84.75
107	Domestic Cat, Rabbit, and Similar-Sized Animals	32 x 9 x 9	1 x 1 - 14 gauge	7 lbs	\$78.65
1010DD	Raccoon, Domestic Cat, Groundhog, Similar Size Animals	36 x 10 x 10	1 x 1 - 12 gauge	13 lbs	\$95.50
108.6	Raccoon, Domestic Cat, Groundhog, Similar-Sized Animals	36 x 10 x 12	1 x 1 - 12 gauge	14 lbs	\$106.15
108.7	Armadillo	48 x 10 x 12	1 x 2 - 12 gauge	17 lbs	\$151.70
109	Fox, Bobcat, Jackrabbit, and Similar-Sized Animals	42 x 15 x 15	1 x 2 - 12 gauge	21 lbs	\$158.50

Positive Set - When the trap is set, the door does not stick out beyond the trap frame. The recessed door allows for the trap to be flush mounted against den openings when the door is open. This is called a "positive set" because the animal must enter the trap when exiting its den.

Versatile - Flush mount traps can also be used as traditional bait and scent sets as well as flush mount positive sets.

Original Series - Rigid, Flush Mount Traps with One Trap Door

Model	Target Animals	L - W - H	Construction	Wt	Retail Price

210B	Dogs, Coyote and Similar-Sized Animals	60 x 20 x 26	1 x 1 - 12 gauge	55 lbs	\$376.09
210C	Large Dogs, Coyote and Similar-Sized Animals	72 x 20 x 26	1 x 1 - 12 gauge	62 lbs	\$387.11

(All of the above features and more...)

Calms Wary Animals - Trap doors at both ends allow animals to see through the trap without obstruction and enter with confidence.

Two Locking Trap Doors - When an animal sets off the trap by stepping on the trip pan, both spring loaded doors instantly snap shut and lock into place, making escape virtually impossible.

Set as Single or Double Door - Traps with two trap doors are more versatile because they can be set with only the front door as a baited trap or set both trap doors to use as a bait-less runway trap.

Original Series - Collapsible Traps with Two Trap Doors

THE TOMAHAWK PROFESSIONAL SERIES LIVE TRAPS

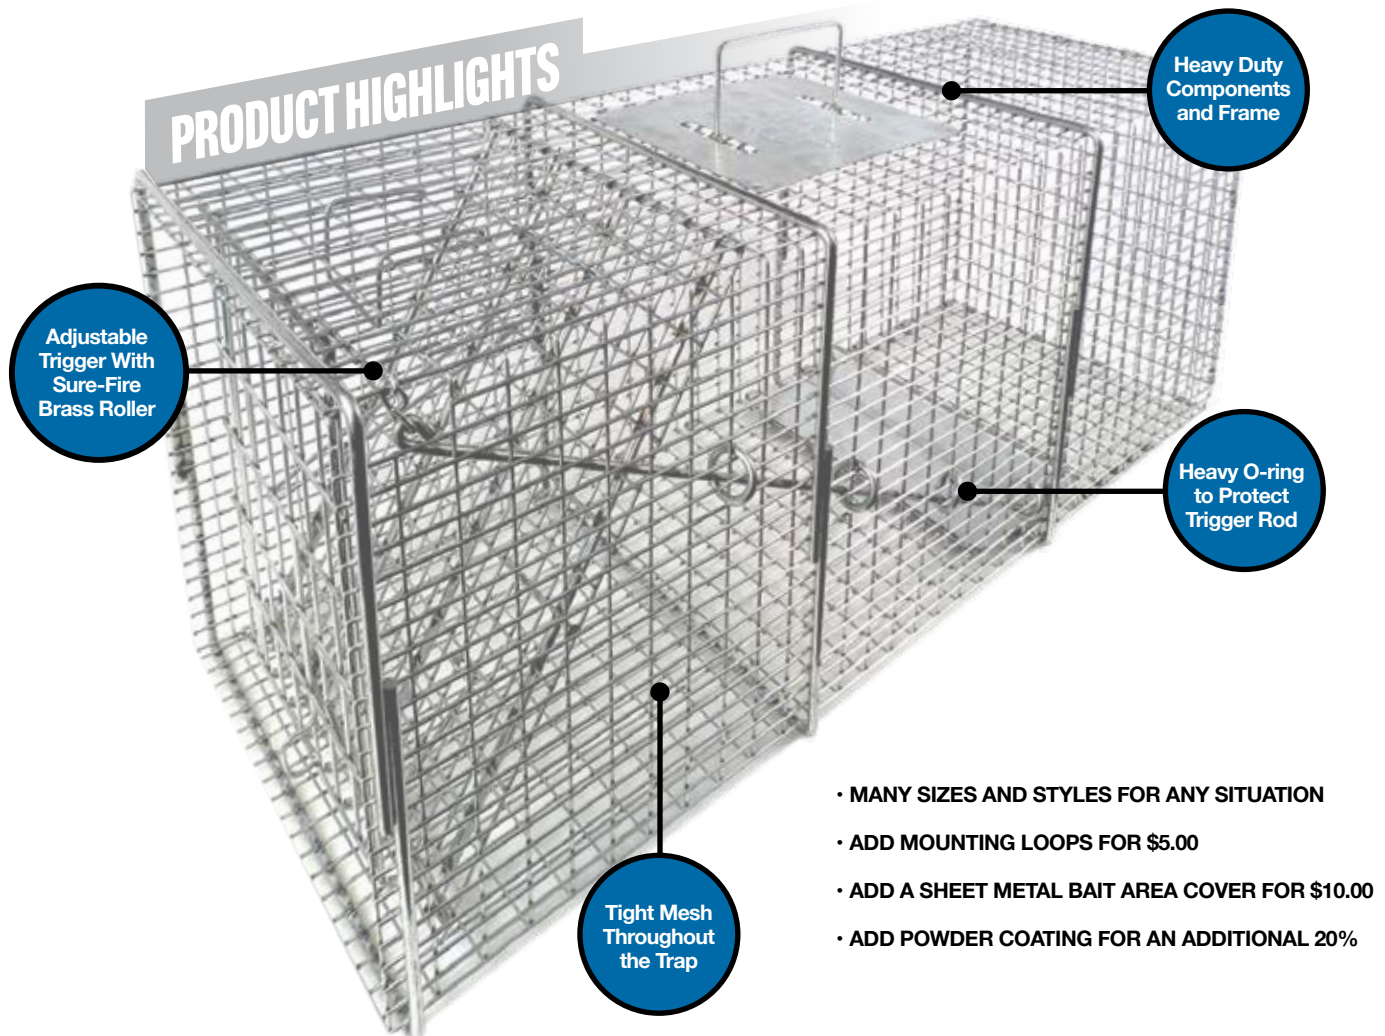

The strongest, most durable, and effective traps available, these traps surpass even our renowned "Original Series" traps when it comes to toughness and durability.

They feature a very strong frame, heavy duty components, "critter proof" trip pan protection system and tighter mesh throughout the trap.

Tighter mesh patterns prevent animals from reaching in from the outside to steal bait. It also prevents animals from reaching out and damaging property while trapped.

Critter Proof pan guards are installed on all 9 x 9 and larger trap models to prevent animal damage. This means no more wasted time flattening bent trip pans.

Simply put, these are the best of the best and are built to withstand years of daily use. They are manufactured in the USA at our facility in Wisconsin and backed with a one-year warranty against defect. Each trap is inspected and tested before it is shipped to you, our valued customer.

109SS-F	Fox, Large Raccoon, Large Groundhog, Similar-Sized Animals	42 x 12 x 12	½ x 1 - 14 gauge	16 lbs	\$126.40

Easy Animal Release - Easy release door provides the safest and easiest way to release trapped animals.

Easy Trap Baiting - Baiting is much easier when done from the back of the trap with the easy release door removed. You no longer have to reach through the front of the trap and risk setting it off.

Simple to Operate - Unsnap the latch which holds the easy release door in place, and remove it by lifting up on the attached handle.

THE TOMAHAWK PROFESSIONAL SERIES TRAPS

Model 108.6SS
Flush Mount Traps
with Two Trap Doors

Model MP100
Multi-Purpose Traps with One
Trap Door, Easy Release Door
and Built On Nose-Cone

Calms Wary Animals - Trap doors at both ends allow animals to see through the trap without obstruction and enter with confidence.

Two Locking Trap Doors - When an animal sets off the trap by stepping on the trip pan, both spring loaded doors instantly snap shut and lock into place, making escape virtually impossible.

One Flush Mount Door - Allows the trap to be flush mounted against den openings when the door is open and the trap is armed. This makes it a "positive set" trap because the animal must enter the trap when exiting its den.

Set as Single or Double Door - Traps with two trap doors are more versatile because they can be set with only the front door as a baited trap or set both trap doors to use as a bait-less runway trap.

Professional Series, Flush Mount Traps with Two Trap Doors

Model	Target Animals	L - W - H	Construction	Wt	Retail Price
102.5SS	Chipmunk, Squirrel, Rat and Similar-Sized Animals	24 x 5 x 5	½ x 1 - 14 gauge	4 lbs	\$55.60

107SS	Raccoon, Opossum, Groundhog, Domestic Cat, Similar-Sized Animals	32 x 9 x 9	½ x 1 - 14 gauge	9 lbs	\$96.10
107.5SS	Raccoon, Opossum, Groundhog, Domestic Cat, Similar-Sized Animals	42 x 10 x 10	½ x 1 - 14 gauge	15 lbs	\$111.85
108.6SS	Fox, Large Raccoon, Large Groundhog, Similar-Sized Animals	42 x 10 x 12	½ x 1 - 14 gauge	18 lbs	\$134.30

Positive Set - Features a unique bottom opening which allows positive setting over dens/burrows.

Versatile - Can be used as a flush mount trap against walls, positive set over burrows or baited and set as a standard trap.

Easy Release Door - Rear door for easy baiting and removal of animals.

Flush Mount - Front panel can be removed to use as a flush mount, positive set trap against entry points on structures.

COMSTOCK SERIES TRAPS

Comstock Series Traps are the most versatile professional series traps available. They feature a patented wire trigger mechanism rather than a trip pan which allows them to be set at any angle including vertical making them the best choice for positive sets and awkward locations. They also feature the strongest door springs of any cage trap available so that the trap doors shut instantly.

PRODUCT HIGHLIGHTS

- POWDER COATED - ALL COMSTOCK SERIES TRAPS COME WITH A POWDER COATED FINISH (EXCLUDING SWING PANEL TRAPS).
- SET IN ANY POSITION - AFTER THE TRAP IS SET IT CAN BE PLACED IN ANY POSITION INCLUDING VERTICAL MAKING IT A GREAT TRAP FOR CHIMNEY SETS AND AWKWARD POSITIONS.

COMSTOCK SERIES TRAPS

Model C911TD-36

Super Strong Coil Springs - Powerful trap doors instantly snap into place when the trap is triggered. This prevents animals from backing out when the trap fires.

Locking Trap Doors - Locking doors prevent animals from escaping, even if the trap is flipped upside down.

Patented Wire Trigger - Comstock traps are triggered by a swinging push bar with wire triggers which allows you to capture the most trap shy animals that avoid a standard trip pan.

Function in Any Position - Can be set standard, upside down, sideways, or vertically.

Comstock Traps Come Powder Coated
(except swing panel traps)

COMSTOCK SERIES TRAPS

Model C911DD-30
9 x 11 Trap with Two Trap Doors

Model C911MP
9 x 11 Multi-Purpose Trap
with Two Trap Doors

Two Trap Doors - Comstock double door traps feature two very powerful locking trap doors.

Versatile - Double door traps can be set as a single door trap with bait or set both trap doors to use as a bait-less runway trap. Traps featuring flush mount doors can also be placed as a positive set against entry points on structures or den openings.

Set in Any Position - Comstock traps can be set in any position making them an excellent choice for chimney and roof mounts.

COMSTOCK SERIES TRAPS

Model CB0918DD
Bifold Double Door Bobcat Traps

CBDD-3PCK
Bifold Double Door Bobcat Traps

Model CB1224DD
Bifold Double Door Bobcat Traps

Bi-Fold Trap Door - Comstock Bobcat Traps feature a unique spring powered bi-fold trap door that keeps the door completely inside the trap when set preventing hang ups from outside branches and allows for flush placement against woodpiles and structures.

Wire Trigger - Rather than relying on the animal to step on a trip plate the Comstock Bobcat Traps use a wire trigger and swing bar mechanism to release the door as an animal passes through the trap.

Nest-able - There are three sizes of Comstock Bobcat Traps that are designed to nest together for saving space during deployment transporting and storage. Small fits into the medium and both will fit into the large size.

Comstock Bifold Single Door Bobcat Traps

Model	Description	L - W - H	Construction	Wt	Retail Price

COMSTOCK SERIES TRAPS

Model CB12DD
12x12 - Otter / Beaver Trap

Model CB39DD
Double Door Beaver Trap

Model C59CHIM
Chimney Trap

Model CB39DD is a unique beaver trap. It is designed for beavers and otters as a swim through trap to be used in water but can also be used on land. This heavy duty professional beaver trap is triggered by a swing bar wire trigger mechanism which allows you to capture the most trap shy animals and does not have a trip pan for animals to avoid. It is especially effective for using in a beaver dam set by punching a hole into the dam and placing the trap upstream just before the hole. When a beaver hears the trickle of the water it will come to plug the dam and pass through the trap setting it off and capturing it inside.

Comstock Beaver Trap

Model	Description	L - W - H	Construction	Wt	Retail Price
CB39DD	Double Door Beaver - 39"	39 x 18 x 12	1½ x 1½ - 12 gauge	23 lbs	\$297.50
CB39DDED	Double Door Beaver - 39" with Otter Escape Door	39 x 18 x 12	1½ x 1½ - 12 gauge	23 lbs	\$315.00

Comstock 12" x 12" traps are made for otter, beaver, large raccoon and similar size animals. Like the larger swim through Comstock Beaver Cage Trap, the 12x12 double door model can be used for beaver in a dam setting by punching a hole in the dam and placing the trap in front of the hole to capture a beaver that is coming to repair the dam. It can also be used in tighter runs or on land. This trap also uses a swing bar wire trigger mechanism. 12 x 12 traps are also available with a tighter ½" x 1" wire mesh in a double door, single door, single door with bait door and single door with release door style.

Comstock 12x12

Model	Description	L - W - H	Construction	Wt	Retail Price
CB12DD-36	Double Door for Beaver, Otter, Raccoon	36 x 12 x 12	1½ x 1½ - 12 gauge	16 lbs	\$174.20

C12SD-36	Single Door for Beaver, Raccoon	36 x 12 x 12	½ x 1 - 14 gauge	16 lbs	\$160.05

Model C59CHIM is a trap designed to capture raccoons living in chimneys. It is designed to be dropped into a chimney from the top, and can be completely hidden from sight. It consists of the trap, trap flap, trap flap chain, trap stop, and chimney top mesh screen. The trap stop allows you to drop the trap into the chimney at any depth you prefer. The chimney top mesh screen will rest under the trap stop to prevent raccoons from entering the chimney from the outside. The trap flap will prevent raccoons from exiting the chimney and avoiding the trap. After the trigger mechanism is set with the trap stop in place, the trap can be lowered into the chimney.

C59CHIM	Comstock Chimney Trap - Fits Inside Flue	30 x 5 x 8	½ x 1 - 14 gauge	9 lbs	\$185.50

COMSTOCK SERIES TRAPS

Model C3524

• **No Trip Pan**- Comstock Series swing panel traps are triggered by a swinging panel mechanism set off when an animal bumps into it while trying to get through the trap.

• **Two Trap Doors** - These swing panel traps feature two trap doors allowing for bait-less runway setting. The 3 x 5" trap is especially great for setting in gutters to catch squirrels using them as pathways.

• **Flush Doors** - Both trap doors are flush mount doors so the trap can be placed directly over entry/exit points.

• **Versatile** - Can also be set as a single door trap with bait by simply placing bait beyond the trigger panel and only setting one trap door. These traps can also be converted to multiple catch colony traps by simply removing the door spring.

THE TOMAHAWK FERAL CAT TRAPS

We worked closely with the Neighborhood Cats, Fix Nation and other rescue organizations around the country to design a series of traps and handling equipment made specifically for feral cats.

Feral Cat Series Traps include extra features for the safe capture and handling of feral cats. An extra large hand protector on the top of the trap prevents the handler from being scratched or bitten when transporting a trapped animal. An extra large tip plate in the trap prevents cats from stepping over the trip plate to avoid capture. A rear sliding access door with a lock on top of the trap makes transfer of cats, baiting and releasing almost too easy. A strategically placed tight mesh pattern at the rear of the trap prevents cats from reaching in and stealing the bait from the outside.

Tomahawk Feral Cat Series Traps are simply the most effective feral cat traps available and offer a safe and reliable way to help reduce feral cat populations around the world.

PRODUCT HIGHLIGHTS

Locking Trap Doors

XL Hand Guard for Added Protection from Scratches and Bites

XL Double Handles for Lifting and Transporting

XL Trip Pan Prevents Cats from Stealing Bait without Being Captured

- STRATEGIC MESH PATTERN TO PREVENT CATS FROM REACHING IN AND STEALING BAIT
- EASY RELEASE DOOR PROVIDES THE SAFEST TRANSFER AND RELEASE TRAPPED CATS.

Restraint Modules

Restraint Modules are specifically designed for easy handling of animals during injections, examinations, or anytime absolute control of the animal is a must. The sliding panel locks into any position the handler desires, and will comfortably hold the animal. The restraint module can be operated with one hand and only requires one individual to operate. Heavy reinforcing rods are welded to the wire frame for extra support. Easy release doors on both ends allows for easy transferring of animals. Our restraint modules match up nicely to our traps and cages with easy release doors.

Squeeze Cages

Squeeze Cages are perfect for vaccinating and examining animals. Simply slide the squeeze panel forward until the animal is firmly held between the panel and the side of the cage. The bottom tray can be removed for easy cleaning, the handles fold flat for easy storage, and an easy release door is provided for easy transfer of the animal.

Cat Den/
Animal
Carrier

Feral Cat Carrier / Den

These units provide animals a quiet place to hide within larger holding pens. They can also be used as transfer cages as they match up nicely to the easy release door of our cat traps and cages.

Our cat dens are easy to disinfect as there are no nuts or bolts protruding into the inside of the unit. They have an acrylic sliding door to allow handlers to check on animals without disturbing them. And they have a porthole door with flip down cover. Simply close the porthole door to secure the animal inside, then remove the unit from the cage for cleaning, treatment, or transport.

TRAP ACCESSORIES

Neighborhood Cats heavy duty trap mats, field tested and endorsed by the Neighborhood Cats organization. Sometimes cats are reluctant to enter a trap because they don't like the feel of the wire mesh floor. A trap mat, which covers the floor of the trap from the front end to the trip plate eliminates this issue allowing animals to enter with confidence.

TRAP ACCESSORIES

Skyhawk-Kiwi Trap Monitoring Device

The Skyhawk Kiwi is a rugged, easy-to-setup remote monitoring device powered by revolutionary cellular technology. The Kiwi is designed to work with any style of trap and can be quickly set up to function with both motion detection and the trap door shutting closed. Stop wasting time and money traveling to and from sites; know exactly when activity occurs in your trap(s), with real-time notifications sent right to your smart device.

SK102B	Skyhawk Kiwi - Monitor & Sleeve Bundle	4 x 2 x .5		1 lbs	\$113.99

Heavy Duty Trap Dividers - 1/4" Steel Rod

Trap dividers allow you to confine animals in a trap by simply sliding it down from the top or through the side of the trap. Use the divider to isolate the animal, then open the door and replace food and water. Close the door and remove the divider. They also make it easy to release trapped animals from traps without easy release doors. Isolate the animal with the divider near the back of the trap, open and secure the trap door, and pull the divider to allow the animal to exit the trap.

Model	Description	L - W - H	Construction	Wt	Retail Price
TD09H	For 9" Wide and Smaller Traps and Cages	9" Divider	.250 gauge	2 lbs	\$21.60

MADE TO ORDER

Plastic Trap Covers

Our plastic trap covers are made-to-order specifically for each model of trap. This ensures an exact fit for handle cut outs and length, height and width of the trap. To select a model # for ordering use the model number of your trap and add the letters PTC in front of them. Example: For trap model 608 the plastic trap cover model would be PTC608. If you don't know your trap model number call us and we can find it for you with some information about your trap.

Plastic trap covers not only calm trapped animals but also shelter them from weather and provide shade from the sun. They also visually hide animals from people and reduce risk of injury to trapped animals and people passing by.

Covers are constructed from UV stabilized .090 polyethylene. They hold up against the elements and will last for many years.

Model	Description
Made Custom	Plastic Trap Covers are made custom for each sized trap.

ONE WAY DOORS & MULTI-CATCH TRAPS

Excluders With One Way Door

Our excluders are designed to let animals remove themselves from unwanted areas. Excluders have mounting wings which allow them to be attached directly over the animals' entry/exit point. The one way door lets animals exit, but prevents them from returning.

Excluders are included with Squirrel Packs to trap animals rather than exclude them. Refer to page 26 for Squirrel Packs.

Squirrel Packs with 1 Trap Door and Easy Release Door - Squirrel / Rodent Removal Systems

Let the critters remove themselves with this system. It's perfect for squirrels and small rodent size animals. And it's extremely simple to use and very effective. Squirrel packs consist of one excluder and two repeating traps. Attach the excluder over the animals den opening with the mounting wings. Slide the repeating trap over the excluder and hook into place. As critters exit, the excluder will direct them into the repeating trap. There are two types of squirrel packs available, one with two trap doors and the other with one trap door and an easy release rear door.

ONE WAY DOORS & MULTI-CATCH TRAPS

SPT45- Repeating Trap with Two Trap Doors

Repeating Traps for Squirrel Packs with 1 Trap Door and Easy Release Rear Door (Included with Squirrel Pack)

Repeating traps are used with excluders to create squirrel packs. They are simply repeating traps that slide over excluders. Two repeating traps are included with the purchase of a squirrel pack, however, these repeating traps can also be purchased separately. There are two types of repeating traps available, one with two trap doors and the other with one trap door and an easy release rear door.

Soffit Cone

Soffit Cones

Can be used to mount traps or one way excluders under soffits, on rooftops, against walls or even spiked into the ground over animal entry points. These easy to attach cones have a 1" flap on the outside edge for mounting. They fit over the trap and can be extended out past the front of the trap to be used as directional cones for funneling animals into the trap.

SPECIALTY TRAPS

H.B. SHERMAN TRAPS

PROTECTING LIFE BY DESIGN SINCE 1955

Since 1955 H.B. Sherman Traps have been the worldwide standard in sheet metal live animal traps, helping facilitate small mammal research in a safe, environmentally friendly way. They have a sensitive trip mechanism to catch lightweight animals like chipmunks, mice, voles, flying squirrels, rats, shrews, ground squirrels, and so much more.

Model JVT100

Javelina Trap

The Tomahawk Javelina Trap is an extra heavy-duty trap designed to hold up against the most aggressive Javelinas. It features a guillotine style trap door that is triggered when the Javelina enters the trap and steps on the trip pan. The trap frame is built from 1/2 x 1" - 14 gauge mesh and reinforced with 1/4" steel rods wrapped around and welded to the frame. The guillotine door is built from 3/8" steel rod and designed to withstand the most ferocious Javelina head butts. Powder coating is standard on this trap to protect it against the elements for many years.

Model	Description	L - W - H	Construction	Wt	Retail Price
JVT100	Javelina Trap	43 x 15 x 25	1/2 x 1 - 14 gauge	37 lbs	\$320.00

Model MCRT100

Cottom's Gottem Repeating Raccoon Trap

This multi-catch raccoon trap features a unique gravity operated repeating trap door invented by Wildlife Control Professional Mike Cottom. The repeating door allows multiple raccoons to enter in a single set. It is a perfect trap for catching a mother raccoon AND all of her mobile kits. It has a flush mount door for positive setting and it's low profile design fits excellent into roof junctions, chimneys and other tight spaces. This trap must sit level or be tilted downward when in operation for the door to operate correctly. The trap also features a rear access door for easy removal and baiting. This trap measures 30L x 9W x 5H.

Model	Description	L - W - H	Construction	Wt	Retail Price
MCRT100	Multi-Catch / Positive Set Raccoon Trap	30 x 9 x 5	1/2 x 1 - 14 gauge	75 lbs	\$158.45

Model DS100
Koonce Raccoon Trap

SPECIALTY TRAPS

Model 924

Dura-Poly Plastic Traps

Plastic traps are made from durable polyethylene and formed into one solid piece. The solid frame construction protects animals from the environment and handlers from animals. It also prevents trapped animals from reaching outside the trap and damaging the surrounding area. And it prevents animals from reaching into the trap and stealing bait.

These traps are an excellent choice when animals need to be trapped in populated areas because captured animals cannot be seen from the outside, and people cannot reach into the trap and disturb the animal.

Model 924 is an excellent choice for skunk because it is completely enclosed.

Model	Description	L - W - H	Construction	Wt	Retail Price
924	Domestic Cat, Skunk, Opossum, and Similar-Sized Animals	24 x 9 x 9	Polyethylene	7 lbs	\$89.00
1232	Raccoon, Domestic Cat, Groundhog, Similar-Sized Animals	32 x 12 x 12	Polyethylene	13 lbs	\$99.00

Tube Traps

Tube traps are excellent for skunks because they are completely enclosed. This trap door shuts and locks into place by using gravity when an animal steps on the trip plate inside the trap.

Model 623

Item	Description	Size	Construction	Wt	Retail Price
P623	Spray Proof Skunk Trap with Rear Release Door	6" Diameter	Plastic Tube	9 lbs	\$59.99
ADC10	Raccoon Size Tube Trap	10" Diameter	Plastic Tube	29 lbs	\$160.96

AQUATIC TRAPS

Model KT04 - KORO Live Beaver Trap. This clam shell style live beaver trap is similar to the Hancock trap. Constructed of a heavy duty aluminum frame and chain link mesh, this trap is built to last a lifetime. It weighs 25 pounds and folds to 6". This trap is designed to capture and hold even the largest beavers.

Model CB39DD - The Comstock Series Beaver Trap is designed for beavers and otters as a swim through trap to be used in water, but can also be used in shallow water or on land. Powerful trap doors help lift and push the animal into the trap. This trap is triggered by a swing bar wire trigger mechanism and comes with a powder coated finish.

Model 801 - Bailey Beaver Trap. This trap is constructed with a heavy duty aluminum frame and chain link mesh. It is triggered when a beaver swims over the trap and bumps the T-bar, causing the spring loaded aluminum jaws to snap into place.

Beaver Traps

Model	Description	L - W - H	Construction	Wt	Retail Price

Model 405 is a multiple catch crayfish trap with two funnel style doors. This entire trap is made of 1/2" x 1" wire mesh to catch even small and medium sized crayfish. One entire side can be opened as a release door to easily unload your catch.

Model 405.5 is a multiple catch trap for crayfish, crab, and shrimp. This trap is made from 1x1" galvanized wire mesh and features four, 3" wide cone doors that funnel animals into the trap. This trap also features a 4x4" bait box inside the trap made of 1/2" x 1/2" mesh to allow the bait to be seen and smelled but not accessible which allows more animals to enter the trap. One entire side of this trap can be quickly unlatched and opened to allow for easy unloading of your catch.

Model 405.6 is our extra-large crayfish, crab, and shrimp trap featuring three funnel style trap doors. This heavy duty trap is constructed from 1 x 1" - 12 gauge galvanized wire mesh. It includes a 5 x 5" built in bait box constructed from 1/2 x 1/2" galvanized mesh. One entire side of the trap can be quickly unlatched and opened to allow for easy unloading of your catch.

Model 406

Model 424

Model 406DD

Model 425

Fish Traps

Model 406 is an extra-large fish trap with one large funnel trap door entrance and a release door on the opposite end. Funnel entrance is approximately 4" diameter and can be adjusted smaller.

Model 406DD is an extra-large fish trap with two large funnel trap doors and a release door on the top of the trap. Funnel entrance is approx. 4" diameter and can be adjusted smaller.

Model 406W is a pair of extension wings that can easily be added to the front entrance of model 406 or 406DD. The extensions act as an extremely large funnel system that reaches out 42" on each side of the trap. This greatly increases the number of fish funneled into the trap.

Model 424 is a Perch / Minnow trap with two trap door funnel entrances. This trap comes with three sets of additional funnel sizes that can be used to change the trap door size from 4" x 4" down to 3" x 3", 2.5" x 2.5" or 2" x 2". These cone sizes can be easily attached with zip ties or hog rings.

Model 425 is a Rough Fish / Catfish Trap. It features a three cone funnel system, release door and bait compartment.

Model	Description	L - W - H	Construction	Wt	Retail Price

Fish Live Boxes

Keep your fish alive and kicking when you are not ready to clean them for the day. Our fish live boxes are a great addition to any dock on the lake or river. Keep the live box in the water when storing fish and simply lift it out to access your days catch. The top opening door features two locks to prevent animals from entering and stealing fish. Made of sturdy 14 gauge plastic coated galvanized mesh these live boxes will last for many years.

Model 402.4 & 402.5 - Coated, Rigid Fish Live Boxes - The mesh of these live boxes are made from the same plastic coated wire mesh as lobster pots to prevent corrosion. Features a locking top door to keep out predators such as otter.

Model 402.4C & 402.5C - Coated, Collapsible, Fish Live Boxes - The mesh of these live boxes are made from the same plastic coated wire mesh as lobster pots to prevent corrosion. Features a locking top door to keep out predators such as otter. These live boxes also collapse to just 2" thick for easy storage and transportation.

AQUATIC TRAPS

Model 403
Collapsible Turtle Trap

Model 403 & 404 are single catch collapsible turtle traps that use a trip pan to trigger the door. Place the trap mostly submerged and bait with raw fish tied inside the rear of the trap behind the trip pan. These traps collapse to just 1" thick for easy storage and transportation and can be deployed in seconds with no tools required.

Model 403R & 404R are single catch rigid traps that use a trip pan to trigger the door. Place the trap mostly submerged and bait with raw fish tied inside the rear of the trap behind the trip pan.

Model 409 is a floating turtle trap designed to catch many turtles at a time. When turtles climb up on the black coated aluminum ramps to sun themselves the gravity trap panels tip inward forcing the turtles to slip into the live trap.

Model 410 is a repeating trap for large turtles such as snapping turtles. It can catch and hold 6+ turtles at a time. Place the trap mostly submerged and bait with raw fish inside the trap. Turtles can push in the repeating trap door but cannot push it open from the inside. This trap is also equipped with a bait access door near the rear of the trap.

Model 410
Repeating Turtle Trap

Model 409
Floating Turtle Trap

Turtle Traps

Bullfrog and Cane Toad Trap

Our repeating bullfrog trap is designed to hold 20+ frogs at a time. It features two one way entry doors and a top access release door. The two repeating trap doors are made of clear acrylic bobs that allow easy entry. To bait, suspend a spinner blade (no hook) with fishing line in the center of the trap as a lure. The flashing of the spinner will attract bullfrogs into the trap.

Model 503

Model SNAP24

Snap Traps for Birds

SNAP17 is our small bird trap designed like a suitcase. This trap is simple to use with proven results. When deployed the trap lays flat like an open suitcase. When birds disturb the food tray the trap is triggered causing the spring loaded nylon net to swing completely around and close over the birds to trap them quickly and safely. The snap trap is powder coated for rust resistance. Net is weather treated with a special green weather-protective coating for longer net life. This trap can be mounted on buildings, walls, and can even be put in trees. This trap is designed to catch woodpeckers and similar sized birds.

Model	Description	L - W - H	Construction	Wt	Retail Price
SNAP17	Small Spring Loaded Suitcase Style Bird Trap with Nylon Netting, Steel Frame and Sheet Metal Food Tray	17 x 17 x 2.5	Nylon Mesh and 1/4" Steel Rod Frame	3.5 lbs	\$74.15

BIRD EQUIPMENT

Hawk / Bird of Prey Traps

The Bird Of Prey Trap works by placing bait in the lower section of the trap and setting the perch to hold open the trap doors. When a bird of prey lands on the perch to investigate, the perch gives way under the weight of the bird, causing the trap doors to close above them. When deployed the trap measures 36L x 36W x 42H. This trap ships disassembled for lower ship cost. An instructional assembly video is available on the instructions page of our website and on our YouTube Channel.

Model	Description	L - W - H	Construction	Wt	Retail Price
520	Hawk Trap with Wire Mesh Trap Door	36 x 36 x 12/&top	1 x 2 - 12 Gauge w/2 x 2 Angle Iron Frame	85 lbs	\$525.00
525	Hawk Trap with Nylon Netting Trap Door	36 x 36 x 12/&top	1 x 2 - 12 Gauge w/2 x 2 angle Iron Frame and Nylon Netting.	80 lbs	\$540.00

Tomahawk Pigeon Traps

Our pigeon traps come in a variety of sizes and styles and all feature repeating trap doors to capture and hold many pigeons per setting. Tomahawk Pigeon Traps are available with either swinging panel style doors or swinging bob style doors. All of our pigeon traps also feature an access door for easy baiting and removal of trapped pigeons. Shade covers, food dishes and water trays are available as add on options for all of our pigeon traps.

Model 502R

Model	Description	L - W - H	Construction	Wt	Retail Price
502R	Rigid Pigeon Trap with 2 Bob-Style Doors	36 x 16 x 8	1 x 1 - 14 gauge	7 lbs	\$64.50
502.5R	Rigid Pigeon Trap with 2 One-Way Doors	36 x 16 x 8	1 x 1 - 14 gauge	7 lbs	\$64.50
504R	XL Rigid Pigeon Trap - 4 Bob-Style Doors	36 x 18 x 8	1 x 1 - 14 gauge	9 lbs	\$89.50

ANIMAL HANDLING EQUIPMENT

Animal Graspers are essential tools for handling cats and wildlife. They provide a safe way to reach animals who have hid in smaller areas. The smoothly contoured grasper jaws are designed to restrain animals and pull them out of hard to reach areas while minimizing discomfort. The handle grip commands a steel cable, which activates the jaws. This provides the handler with a precise feel of pressure being applied to the animal.

Tomahawk offers graspers in three different categories and two standard lengths. We also custom build graspers to any desired length. Please call for quotes on custom lengths

STANDARD GRASPERS:

- Heavy-duty cast aluminum grasping end with two gripping jaws.
- Heavy-duty cast aluminum handle and lever.
- Stainless steel aircraft cable to connect lever to grasper end.
- Anodized aluminum tube.
- Cushioned grasper jaws for less stress to the animal

NYLON GRASPER:

- Same features as our standard tube except with nylon jaws and handle. Nylon is extremely lightweight yet strong and durable.

Standard Animal Graspers

Model	Description	Construction	Wt	Retail Price
310	28" Animal Grasper with Standard Tube	Aluminum	2 lbs	\$74.15

Throw Nets

Throw nets are great to use when getting close to the animal is almost impossible, and conventional nets are out of the question. We offer high quality nylon throw nets with weighted perimeters. This makes them easy to throw and with great accuracy, just throw it like a Frisbee over the top of the animal. We offer several sizes.

TN4 - 4' Throw Net is for cats, small dogs, and similar sized animals. It is 4 feet in diameter with 1" nylon mesh openings.

TN6 - 6' Throw Net is for small to medium sized dogs and similar sized animals. It is 6' in diameter with 2" nylon mesh openings.

TN8 - 8' Throw Net is for medium to large size dogs and similar sized animals. It is 8' in diameter with 4" nylon mesh openings.

ANIMAL HANDLING EQUIPMENT

**Freeman
Cage Net**

**Freeman
Hammock
Net**

**Freeman
Little Dandy**

**Freeman
Multi-Purpose
Net**

Freeman By Design - Nets

Freeman Cage Net

Featuring a deep, soft fine-meshed net and a hoop that opens and closes by a slide on the handle. The net has a unique hoop shape to help fit into cage corners. Simple to use, gentle on the animal. Ideal for handling cats, snakes and other wildlife under 25 lbs. The net also features a zipper on the bottom to make release of the animal or examinations easier.

Freeman Little Dandy

Compact, lightweight and designed for tight quarters. This net is perfect for smaller animals under 10 lbs. It features a locking cord to safely secure animals in the bottom of the net. The slightly oval hoop opening is 10"W x 13"L. And the net bag is 26" deep with a 38" circumference. The 6" net handle is completely covered with a comfortable neoprene grip. The overall net length is 22" and it weighs just under 1 lbs

Freeman Multi-Purpose Net

The perfect size and shape for cats in cages or any tight space. It is strong, lightweight and has a shorter 18" handle making it excellent for close quarters. The locking cord safely secures animals in the bottom of the net. Net opening is 16"W x 16"L and is 36" deep. Net handle is completely covered with a durable yet comfortable neoprene grip to prevent slipping. Total net length from handle to end is 36"

Freeman Hammock Nets

An excellent field net. A flexible hoop allows the net head to bent against hard surfaces easing the capture process and reducing escape. This net features tough yet stretchable nylon netting. Small mesh gives more comfort and reduces animal injuries. A quick cord closure with nylon cord lock secures the animal safely within the netting.

ANIMAL HANDLING EQUIPMENT

EZ-Nabbers

Ensuring safety for animal handlers, saving incredible amounts of time, and providing dozens of uses, the EZ Nabber is a very smart and sound investment. In addition to providing a safe and humane way to capture animals, injections can be given through the net. Pets can be transferred from one cage to another without injury or stress to the animal or the practice staff. Pets can be removed from and/or placed in pet carriers. When the net becomes soiled, leave it on the frame and wash it in the tub with soap and water: use a disinfectant if needed. Abscesses and wounds can be flushed, and the pet can be bathed in the net. Our new 14" frame fits 18" x 18" cages.

LH103-Z	Small Dura-Flex with 4' Shaft and Zipper	Aluminum Tube, Nylon Net	5 lbs	\$103.50

Dura-Flex Animal Net Features:

Solid Nylon Hoops - Provides strength and flexibility. These nets can be pressed firmly against the ground or wall to entrap animals even when the net shaft is at an angle. This allows handlers to stand upright while netting and restraining animals.

Long Neoprene Grips - Allows handlers to securely grab net shafts without slips, even when wet.

Heavy Aluminum Handles - The 1" aluminum tube handle provides added strength and durability.

Woven 1/4" Nylon Mesh Netting - Does not propagate tears, unravel, or weaken from adjacent tears. Net seams are surged with polyester thread, and small mesh size prevents animal entanglements.

1/8" Woven Nylon Hem - Most wear and tear suffered by animal nets is to the hem that attaches the net to the hoop. This design will easily handle abrasive surfaces like concrete.

Tie-off Cords - Allows handlers to secure animals in the bottom of the net.

Zipper Bottom Option - All Dura-Flex Nets are available with a zipper release bottom or without.

Medium Dura-Flex Animal Net

Medium Dura-Flex Animal Nets have a 72" hoop circumference and are 50" Deep. They feature a tie off cord, comfort grip handle and flexible nylon hoop. This is an excellent net for cats, small dogs and similar sized animals. Available with a zipper release bottom or without.

Leashes

Professional Handling Leash - This leash is the culmination of years of development and field trials by some of the industries most seasoned professional animal handlers. From animal cruelty investigations to major disasters around the world, the Field Professional's Handling Leash has been tried and tested over and over.

Quick Leads - Heavy duty quick capture lead made from vinyl coated stainless steel cable. Ideal for quickly capturing large dogs or moving them from one area to another.

Flat Poly Leashes - 1/2" wide x 56" long poly leash with a nickel plated "D" ring. This leash promotes safe transport, is stronger, wider, and thicker than most of our competitors, yet is still very economical. Sold in packs of 50.

Ski Rope Leashes - Round 1/4" x 56" polypro "ski rope" with a solid nickel plated "O" ring. This leash is excellent for in-house use, or to give to those clients who forget to bring a leash. It is machine stitched at both ends for added security. Sold in packs of 25.

301	Top Opening Cat/ Rabbit Size Cage	16 x 9 x 10	1 x 1 - 14 gauge	4 lbs	\$49.55
303	Top Opening Raccoon/ Opossum Size	20 x 11 x 12	1 x 1 - 12 gauge	6 lbs	\$58.20

End Opening Cages

End Opening Cages

One entire end of these cages is a swinging door for placing animals in and out of the cage.

Model	Description	L - W - H	Construction	Wt	Retail Price
302	End Opening Cat/ Rabbit Size Cage	16 x 9 x 10	1 x 1 - 14 gauge	5 lbs	\$49.55
304	End Opening Raccoon/ Opossum Size	20 x 11 x 12	1 x 1 - 12 gauge	7 lbs	\$58.20

Transfer Cages

One entire end of these cages is a sliding door designed especially for easy transfer of animals from an "Easy Release" trap. Our transfer cages are built to specific sizes that match traps with easy release doors. Simply line up the door end of the cage with the easy release door of your trap, and pull the release doors up and out of the way. After the animal is moved to the cage, replace the door and latch into place. Your trap can now be redeployed.

309	Large Dog Transfer Cage	36 x 20 x 26	1 x 2 - 12 gauge	24 lbs	\$158.75

Transfer Cages

Pro-Series Transfer Cages Featuring 1/2 x 1 - 14G Mesh

Professional Series Transfer Cages are constructed with a tighter mesh pattern compared to our standard transfer cages. Tighter mesh protects handlers from bites and scratches and also prevents property damage by preventing trapped animals such as raccoons from reaching out of the cage during transportation. Transfer cages feature a removable sliding door for easily transferring animals from live traps with easy release doors.

Model	Description	L - W - H	Construction	Wt	Retail Price
305SS	Cat/ Rabbit Size Transfer Cage	16 x 9 x 10	½ x 1 - 14 gauge	5 lbs	\$61.25

Restraint Modules

specifically designed for easy handling of animals during injections, examinations, or anytime absolute control of the animal is a must. The sliding panel locks into any position the handler desires, and will comfortably hold the animal. The restraint module can be operated with one hand and only requires one individual to operate. Heavy reinforcing rods are welded to the wire frame for extra support. Easy release doors on both ends allows for easy transferring of animals. Our restraint modules match up nicely to our traps and cages with easy release doors.

Model	Description	L - W - H	Construction	Wt	Retail Price
RM306	Restraint Module for Domestic Cat	21 x 11 x 12	1x1 - 14 gauge	12 lbs	\$159.00

Rescue Cleaning Products

Powerful enough for an outbreak and safe enough for everyday use! Rescue has more than 6 times the cleaning power of other products and works in half the time of traditional disinfectants. Rescue kills bacteria in just 5 minutes vs 10 for traditional disinfectants. Traditional disinfectants usually need to be applied twice in order to keep the surface wet for that long. Traditional disinfectants also require that you wash and rinse the surface prior to using them, and then rinse again after the 10 minute contact time is met!? WHO HAS THE TIME! With Rescue you can disinfect in one single step. Rescue is safe, fast and will not destroy your equipment like other cleaners. It is an ideal product for cleaning traps, cages or any surface that has been touched by animals. It is available in concentrate, and ready to use wipes.

Ton Jones Deluxe Snake Tongs

Ton Jones Snake Tongs feature a 22 degree bend in the tube to keep the jaw head flat with the ground while grabbing snakes and reptiles. Deluxe snake tongs feature wide 2.5" cast aluminum jaws. The wider jaw distributes holding pressure over a larger area to prevent trauma to the animal and provides more holding power to the handler.

Snake Equipment

Standard Snake Hook

Flat Snake Hook

XL Super Snake Hook

Snake Hooks

Standard Snake Hooks

Our Standard Snake Hooks are 46" long with a golf club grip at one end and a hook formed from 9/32" stainless steel rod at the other end. The hook has a 3 1/2" opening. The shaft is a lightweight but very strong golf club steel shaft. These are Heavy Duty Snake Hooks built to last for many years.

Flat Bar Snake Hooks

These snake hooks feature a flat bar style hook that allows for more surface area contact giving the handler more control of the snake. Available in standard size for average snakes and XL sizes for very large snakes such as Boa Constrictors.

SNAKE EQUIPMENT

Snake Traps

Model 460 and 460XL are repeating snake traps that function as a funneling system to catch snakes. The funnel opening of model 460 is a 1.5 inch diameter and the opening of model 460XL is 3 inch diameter. They can both be adjusted tighter if needed for smaller snakes. Both come with a Powder Coated finish to add extra solar heat to the trap enticing snakes to enter. The traps feature wings that can be extended to the sides for funneling snakes into the trap. There is also a removable back door for easy release that features a welded on metal plate for bite protection while removing the rear door lock.

Plastic Repeating Snake Traps

A repeating plastic snake trap designed for catching small and medium size snakes up to 1-1/2" thick. The trap is made from durable polyethylene and will hold up to the elements for many years. Trap is baited with scent lure and heat packs or caged mouse inside the trap. Snakes can pass through the cone with a repeating door but cannot push back out. The trap features a clear or tinted plastic door for easy viewing and removal of trapped snakes.

Double Pan Snake Trap

The double pan snake/reptile trap is a cage trap with a 2 pan system designed to catch large snakes or reptiles only. Snakes and reptiles have long bodies that are either dragged along the ground or very low to the ground. This enables them to press both pans at the same time and trigger the trap. Other animals such as mammals will walk over one pan at a time and not trigger the trap. This trap also features a removable rear door for easy animal release.

Item	Construction	Description	Size	Wt	Retail Price
